- Based on this week's app review data, here are 3 concrete, high-level action ideas for the product team:

- 1. ****Simplify Onboarding Process****: Many users have reported difficulty in navigating the app's initial setup and investment process. To address this, the product team can streamline the onboarding flow, reducing the number of steps and providing clearer instructions and guidance to help new users get started with Kuvera.

- 2. ****Enhance Portfolio Tracking and Analytics****: Several reviewers have requested more detailed and customizable portfolio tracking features, including real-time updates and more granular analytics. The product team can prioritize the development of these features to provide users with a more comprehensive understanding of their investments and help them make informed decisions.
