> "app ko open kar rha hu automatic back ho ja rha hai koi bhi download na kare"

> "HIGH BROKERAGE AND TAX"

> "nowadays they are doing cheating with their customers, I had mutual fund account in groww for many years which is free ,now they are forcing me to open their stock account too so they charged me account opening charges and later on annual maintenance charges. I don't want to do trading or buy or sell any stocks etc then why do you forcing me for that. I am not able to see my mutual funds portfolio status because your inbuilt system is asking for details to open account."

2. Customer Support

- **Voice of the Customer:**

> "Very poor service and total waste of time! (1 Star) Worst customer service I have ever experienced. My account setup has been pending for nearly two weeks, and there is no proper response or support from the team. They are just wasting people's valuable time. Highly irresponsible and pathetic service. Better to avoid this app and look for better alternatives!"

> "worst experience, it's been a one week account not activated, customer care people instead

of solving problems, they suggested that I should delete the account permanently."

> "why don't showing support and resistance"

- **Voice of the Customer:**

> "this app bugs and sucks and will eat my money and our money be safe don't use this app"

> "options chain keep getting stuck in live session! No stability. They change layout at will which affect trading flow. Fno section's layout has been changed which has made it more difficult and cluttered to execute trades on top of it it's glitchy. can't believe an app with do many subscribers can do such a poor job and can be so glitchy especially an app which deals with trading. when their customer care was approached the only answer they had was "sorry for inconvenience".

> "horrible customer agent support, app lags and no longer we can trust GROWW"
